COMMERCE RESEARCH FUND

In honor of the late James Douglas Muir, Professor of Industrial Relations, who died 30 April 1976, shortly before he was to assume duties as the Dean of the Faculty of Business Administration and Commerce, the University has decided to establish the J.D. Muir Research Fund.

The Fund, which is open to all permanent members of the University's Business Administration and Commerce faculty and which will receive money from a portion of the overhead allowance from a Canadian International Development Agency contract, will provide a total of \$47,500 to be used over a four-year period for research and study in management performance. On the same day that the University authorized the establishment of the J.D. Muir Research Fund, it also renewed its contract with CIDA, which provides for this University's program of assistance to the Faculty of Commerce at the University of Nairobi in Kenya.

This particular research fund is an especially appropriate way of honoring Dr. Muir, for he was very active in the project at the University of Nairobi. The project in the commerce faculty at the University of Nairobi was initiated by the Kenyan government, set up by CIDA, and contracted to the University of Alberta, to help the University of Nairobi develop a high quality commerce faculty. A number of members of the Faculty of Business Administration and Commerce here have been or are currently involved in the project. The commerce program at Nairobi includes both undergraduate and master's programs and draws students from other African nations, Pakistan, and India, as well as from Kenya itself.

James Muir was seconded from the University of Alberta in 1971 to the University of Nairobi. There he served until 1974 as Dean of the commerce faculty and taught industrial relations, organizational theory, and business policy. When he returned to the University of Alberta, he resumed teaching, and early in 1976 he was appointed Dean of the Faculty, effective 1 July 1976.

Although the J.D. Muir Research Fund will be awarded to support research of any kind in management studies, it is hoped that the existence of the Fund may encourage Faculty members to undertake research that might be of relevance to the University's work in

Nairobi. It is also hoped that the Fund's existence will remind people of the project in which Dr. Muir was so actively involved. But the establishment of the J.D. Muir Research Fund is not simply to help promote—though it may do so—a project

that Dr. Muir gave a great deal of effort to: it is to honor a man who was a dedicated and hardworking member of the Faculty of Business Administration and Commerce, whose dedication extended far beyond the bounds of the University.

GENERAL FACULTIES COUNCIL AGENDA

The following agenda has been received from Margaret McCaughan, Secretary to the General Faculties Council.

A meeting of the General Faculties Council will be held on Monday, 31 January 1977, at 2 p.m. in the Council Chamber, University Hall.

- 1. Tribute to Dean James McCutcheon
- 2. Approval of the agenda
- 3. Approval of minutes
- 4. Question period
- 5. Executive Committee report
- 6. Report of Board of Governors
- 7. Report of the Nominating Committee
- Business arising
- 8. Employment policies: policy for inclusion in Board of Governors and GFC Policy Manuals
- New business
- 9. Status of the following committees under New Academic Staff Agreement: General Promotions and Salaries Committee, Administrative and Professional Officers Committee, and General Appeals Committee
- 10. Course guide and evaluation questionnaire: recommendation of Academic Development Committee
- 11. Other business

CUSO NEEDS TECHNICAL AND BUSINESS PERSONNEL

CUSO needs mechanics (auto, heavy-duty), carpenters, electricians, block layers, land surveyors, technicians, engineers (civil, electrical, industrial, mechanical, chemical), technologists, economists, and business people (BCom, MBA) to work in areas in the Caribbean, Latin America, Africa, Asia,

and the South Pacific. Assignments are for two years, and transportation, insurance, and orientation is provided by CUSO. Salaries are paid by the host government at the local (not Canadian) rate, which is sufficient to maintain a comfortable standard of living.

Further information about CUSO will be available at a public information session, 1 February at 8 p.m. in the Social Room of the Jubilee Auditorium, when a CUSO information officer will be on hand to show a film and to answer questions. Detailed information about technical and business assignments with CUSO will be available to those interested 1 February between 9 a.m. and 4:30 p.m. when Barbara Brown, Technical Programme Officer for CUSO, visits the CUSO office on campus as part of a recruitment tour. Interested persons should contact Carrol Burkard of the CUSO Office, telephone 432-3381.

EMINENT SCIENTIST SPEAKS ON NUCLEAR ARMS

John C. Polanyi, Professor of Chemistry at the University of Toronto, will speak on "The nuclear arms race: how did we get where we are and where are we headed?" 27 January at 8 p.m. in TLB-1 Tory Building; the public lecture is sponsored by the Students' Union. In addition he will give two technical seminars sponsored by the Department of Chemistry.

Professor Polanyi is an internationally renowned chemist and holds numerous distinguished honors and awards. He is concerned about the relations between science and society and the role that scientists must play in influencing governments and the public to resolve international issues vital to the future of the world, such as nuclear armament. Professor Polanyi is Chairman of the Canadian Pugwash Committee, part of the Pugwash Movement, founded by Lord Bertrand Russell. Lord Russell's initial statement, "In view of the fact that in any future world war nuclear weapons will certainly be employed, and that such weapons threaten the continued existence of mankind, we urge the Governments of the world to realize and acknowledge publicly, that their purpose cannot be furthered by a world war, and we urge them, consequently, to find a peaceful means for the settlement of all matters of dispute between them," was endorsed by Albert Einstein and eleven other internationally renowned scientists in 1954. Professor Polanyi has been a delegate to the annual Pugwash Conferences since 1960 and is an expert on the subject of nuclear armament and an articulate spokesman against the proliferation of nuclear arms.

ENERGY CONSERVATION

The following information has been received from R.J. Burns, Director of the Office of Energy Management on campus.

The Energy Management Office at the University of Alberta, in cooperation with various departments reporting to the Office of the Vice-President (Planning and Development) has compiled the following data concerning the levels of energy consumption within selected buildings on campus for the 1975-76 operating year.

Total energy used within a building for heating, air conditioning, ventilation, production of domestic hot water, lighting, and laboratory activities have been converted into equivalent units of electrical energy stated in terms of kilowatt hours per square foot of gross area per year (KWH/sf/yr).

As a further comparison for the following consumption figures, the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE) recommends that total annual consumption in new buildings be in the order of 16.1 KWH/sf/yr.

Building and Facility	Total Consumption (KWH/sf/yr)
Rutherford Library North	52.7
H.M. Tory	55
Education North	55.6
Cameron Library	55.9
Fine Arts	59.1
Law Centre	59.8
Education North	60
University Hall	63.1
Agriculture	69
Humanities	72.2
Administration	75.4
Printing Services	77.2
Central Academic	78
Physical Education	80.4
General Services	85.7
Physics	93.5
Chemistry West	94.8
Mechanical Engineering	102.7
Clinical Sciences	112.4
Home Economics	126
Medical Sciences	130.8
Students' Union	133.7
Chemistry East	138.2
Chemical-Mineral Engineering	147.1
Nuclear Research	151
Biological Sciences	151.7
Art Workshop I	164.6
Greenhouse	173.7
General overall average	88.2 KWH/sf/yr.

The above statistics show that the University of Alberta still has some way to go in the area of energy conservation. The goal at this time is to reduce the "general overall average" from 88.2 KWH/sf/year down to 50 KWH/sf/year on existing buildings without interfering with essential activities, and to future facilities to achieve lower consumption rates. Subsequent articles will report on savings which have been achieved to date through active faculty cooperation.

COMPARATIVE COPYING COSTS

The following example of a departments' photocopying bill, with the comparable cost of offset duplicating for the same job, illustrates the difference in cost between these two processes.

Masters	Copies	Photocopying Cost	Offset duplicating cost
4	146	\$13.48	\$10.65
6	146	20.22	14.85
14	146	47.18	32.92
28	146	98.36	66.02
Total cost		\$179.24	\$124.44

Both costs include collating and stapling. The offset duplicating cost includes the cost of the offset press operator's time, while the photocopying cost does not include the time used by the department's photocopier operator.

This saving of thirty percent in copying costs, exclusive of the cost of staff time, may be worth consideration by departments now preparing their 1977-78 budgets.

For more information about offset duplicating services and photocopier costs, contact Eric Easterby at Printing Services, telephone 432-4246.

NOTICES

SEXUAL ASSAULTS

The author of the *Gateway* advertisement (Tuesday, 18 January) advising campus women to take precautions against sexual assaults is invited to contact the Committee on Sexual Assaults, through its Chairperson, Jean K. Lauber, at 432-2280 or 432-3213.

The committee is concerned with finding means to decrease the incidence of sexual assaults and wishes to hear from anyone with relevant information.

CIDA'S SPEAKERS' BUREAU PROGRAM

The Canadian International Development Agency is in the process of introducing a speakers' bureau program to give Canadians a better understanding of Canada's role in international development and, in particular, to outline the ways in which CIDA operates, its policies, and the impact of its programs. A wide variety of topics can be covered in depth by CIDA speakers: hunger, rural development, and population growth; trade, technology, and economics; medicine, nutrition, and health; aid, cooperation, and

Third World self-reliance; technical cooperation; the effectiveness of Canadian aid; the private sector, non-governmental organizations, and development; the similarities and differences between aid and development; education and illiteracy; and multilateral aid.

There is no charge for the services of the speakers' bureau. Additional information and confirmation of speakers may be obtained by contacting CIDA Speakers' Bureau, Information Division, Suite 500, 63 Sparks Street, Ottawa, Ontario, K1P 5A6.

COMMITTEE VACANCY

Committee to Investigate Teaching. There will shortly be a vacancy on the Committee to Investigate Teaching for a member of the academic staff. Persons who have suggestions for nominations or who are interested in serving on the Committee are requested to contact the Secretary of the Nominating Committee, 1-15 University Hall, telephone 432-4715.

APPLICATIONS FOR FUNDING

The Alma Mater Fund has funds available to assist groups on campus to finance worthwhile projects. The Fund is the University vehicle through which alumni are solicited for contributions each year. Gifts are also made to the Fund to be used for projects that will give an added dimension to University activities.

Criteria for projects are minimal, but projects should not be of a type normally funded from general University operating or research funds, not be for individual students to advance their academic careers (for publishing theses, etc.), nor be for salaries per se. They should be strongly oriented toward the student community.

Deadline for applications is 28 February 1977. Application should include descriptions and budget of the project and background information on the group making the application. Applications should be submitted to Lorne MacPherson, Secretary, Alma Mater Fund Allocation Committee, 849 General Services Building, telephone 432-4256.

FILM ON ALCOHOLISM

A twenty-eight minute film on alcoholism, entitled *Someone Cares*, has been made by the Motion Picture Division of Technical Services and will be shown 31 January at 12:15 p.m. in L-3 Humanities Centre. The film deals with four types of alcoholics and their rehabilitation.

WATER SAFETY COURSE

The University is offering a course in first aid from 31 January to 21 March, Mondays between 4 p.m. and 7 p.m. The course costs \$15 and leads to the Saint John's standard certificate. Registrations may be made at the Pool Office, telephone 432-3570.

In the Rice Theatre. For ticket information contact the Theatre Box Office, 10018 102 Street.

NON-CREDIT COURSES

SOCIAL RESEARCH PRACTICUM

Social research methods will be dealt with in detail in a social research practicum beginning 31 January.

A research design on a topic of the students' choice will be developed in detail in order to give the students supervised, first-hand experience in the use and limits of social research methods. Skills for critically analyzing published research will also be developed.

The course will be of practical value to planners, community action groups, community development workers, and social service agency personnel. The practicum will be held from 7:30 p.m. to 9:30 p.m.

for ten Mondays. The fee is \$35 and registrations are accepted in 228 Corbett Hall. For additional information contact 432-5064.

COMMUNICATIONS IN ORGANIZATIONS

Jon White, Director of Communications Group Services, Alberta Public Affairs, will conduct a course dealing with communication in organizations beginning 1 February. It will be of interest to those who want to know more about the potential contribution effective communication can make to the work of any organization. The course will focus on both internal and external communication and on common blocks to effective communication.

Topics will include communication as a management tool, internal communication techniques, external communications and public relations, communications and change, and evaluating organizational communications.

Class hours will be from 7:30 p.m. to 9:30 p.m. for ten Tuesdays. The fee is \$40 and is payable in 228 Corbett Hall. Further details are available by calling 432-3116.

BASIC INTRODUCTION TO REALITY THERAPY

A thirty-hour course beginning 1 February will provide a basic knowledge of the theory and practice of reality therapy, a method of working with people through caring from which comes the initial strength a person needs to be able to change.

The course offers an approach which states that an individual is responsible for his own behavior. Neither society, nor environment, nor heredity, nor the past, but each person must assume responsibility.

Participants in this course will have the opportunity to learn about and practice the concepts and steps utilized in this therapeutic approach.

Class hours will be from 7 p.m. to 10 p.m. for ten Tuesdays. The fee is \$85. Registrations are accepted in 228 Corbett Hall. For additional information telephone 432-5069.

AFFECTIVE PARENTING WITH THE LEARNING DISABLED CHILD

In a course beginning 2 February, parents with a learning disabled child will have an opportunity to learn some helpful attitudes and strategies which can assist in overcoming a child's learning difficulties.

Practical ideas will be presented on how parents can diagnose their children's specific learning strengths and weaknesses and will identify remedial methods and materials that can be used. An underlying and major emphasis will be placed on the development of attitudes and environmental climates that are supportive to a child.

Following the presentation of resource material and ideas, parents attending will be asked to develop some remedial plans, to

actually carry out a program with their children, and to share their experiences with fellow course members.

The course will be held for five Wednesdays from 8 p.m. to 10:30 p.m. The fee is \$20 and is payable in 228 Corbett Hall. Additional information is available by calling 432-5069.

TELEVISION COURSE IN ENGLISH AS A SECOND LANGUAGE

Starting 1 February, Cable 13 will carry a ten-week course in English as a second language. Each half-hour program will be broadcast three times a week—on Tuesdays at 10:30 a.m., on Tuesdays at 7:30 p.m., and on Thursdays at 7 p.m.

Each program will begin with a dialogue, a story, or a letter, and their structures and idioms will be explained and discussed. Each program will end with a lesson on the pronunciation of Canadian English.

Transcripts of the programs and instructional materials will be provided to those who enroll in the course. Registrations are accepted in 228 Corbett Hall. The fee is \$40. Additional information is available by calling 432-2497.

MTS AND EDITOR FUNDAMENTALS

As an introduction to the use of computer terminals, this course includes practice in procedures for signing on to the system (MTS), information storage, and manipulation using the file editor.

The course will be offered from 9 a.m. to 11 a.m. on 1 February and 3 February. It is open to all interested persons and registrations are accepted at the Computing Services General Office, 352 General Services Building. There is no charge.

INTRODUCTION TO TEXT EDITING AND FORMATTING

This course involves the use of the file editor and *FMT program to edit text and format manuscripts. It could be of use to students and members of staff (both non-academic and academic) wishing to use the MTS computing system to edit and produce papers, articles, theses, books, and other documents. Adequate computer time will be provided for students to do meaningful exercises. MTS and Editor Fundamentals is a prerequisite.

This course will be offered on Wednesdays from 10 a.m. to 12 a.m., 16 February to 16 March and again on Mondays from 2 p.m. to 4 p.m., 7 March to 4 April. There is a nominal fee of \$10 (\$20 for commercial clients). For further information telephone 432-2261.

HIGHLIGHTS OF FRENCH-CANADIAN LITERATURE

This eight-week course is designed to present interesting ideas and themes found in French-Canadian literature from the beginning of

this century to the present. The emphasis will be mainly on novels, although some plays and poetry will be discussed. The lectures will be in English.

Classes commence Wednesday, 9 February, and the fee is \$25. Registrations are accepted in 228 Corbett Hall. Additional information and a suggested reading list are available by calling 432-3033.

WOMEN IN LITERATURE

This course will deal with fiction, written by both men and women, that focuses on female characters in many different situations and facing a variety of problems. It will not be a sociological examination of how women live; rather, it will be a study of rich and complex characters making mistakes, learning about themselves, and making and resolving very human problems.

The ten-week course commences Tuesday, 8 February. Registrations are accepted in 228 Corbett Hall. The fee is \$30. Additional information is available by calling 432-3033.

THE AMERICAN CHARACTER

Are Americans different from Canadians? Is there a unique American character? A ten-week course beginning 2 February will attempt to answer these and other questions by examining contemporary affairs and relating them to such aspects of the American experience as the abundance of natural resources, the influence of the frontier, the establishment and development of the political system, the causes and legacies of the civil war, and foundations of foreign policy.

Registrations are accepted in 228 Corbett Hall. The fee for the course is \$30. Further information is available by calling 432-3033.

SURPLUS EQUIPMENT LISTING

The equipment listed below has been declared surplus. If your department is interested in any of this surplus equipment, please get in touch with the declaring department and arrange a satisfactory price. Once you have arrived at a price, make up a purchase requisition showing the account to be charged, and forward the requisition to the Purchasing Department. Arrangements for the transfer will then be made.

All departments are encouraged to dispose of surplus equipment. This disposal is accomplished by completing a surplus equipment declaration form and forwarding it to the Purchasing Department. Proceeds from such disposals are normally credited to the accounts from which the equipment was originally purchased; however, this is not always the case. For further information and details on the disposal of surplus equipment, telephone Bonnie O'Dwyer or Roy Bennett at 432-3208.
